# PJ PRODUCTION.

**About PJ Production** // PJ Production were established in year 1997, and have since the beginning designed, developed, and produced office accessories for the modern working environment. We are an international company with big ambitions ready to optimise our customers' business, regardless of the size of the tasks. We truly believe that great service, consultancy, and reliable delivery are the key towards success.

We determinedly take our collaborators' demands very seriously via reciprocal respect, ongoing dialogue, and quality-oriented solutions. And this exact combination support our livelihood on a market with quality-consciously collaborators.

**Mission** // PJ Production is designing, developing, manufacturing, and selling office accessories for modern workplaces with a focus on the end-users' needs.

**Vision** // PJ Production will be our customers' preferred partner when it comes to office accessories within our range. This through flexible and customised solutions that create value for our customers' value chain.

**Values** // PJ Production is working with four core values, which are to be committed, accommodated, reliable, and solution-oriented. These are the values affecting all work-flow processes at PJ Production, regardless of the of the size of the tasks.

Pen tray: 39 x 785 x 243 mm.  
Insert: 27 x 185 x 226 mm.

# BAMBOO PEN TRAY.

BAMBOO PEN TRAY // Representing sustainability

**Sustainable design** // The philosophy of this bamboo pen tray was to create a sustainable design with the essential characteristics of the beauty of nature and the authenticity hereof. With the nature as inspiration and an environmental awareness, bamboo became an attractive choice, since the material is the most environmentally-friendly resource to sustainability and durability. Bamboo is widely perceived as an attractive alternative compared to other ma-

terials used in our existing portfolio due to its green growth, sustainable harvesting, and wood like properties. The design has taken cables into consideration, which discretely can be hidden through the two holes in the back of the drawer. Furthermore, the design of the drawer has one regular room, but can easily be upgraded with our insert in matching colour, absolutely brilliant for storage pens, pencils, personal belongings, among other things.

Bamboo front - mainly project-oriented  
689 x 32 x 18 mm.

# LAPTOP TRAY 2014.

LAPTOP TRAY 2014 // Space for your personal belongings

**Efficient storage** // With our Laptop Tray 2014, you can storage all your personal belongings efficiently at your fingertips.

The drawer has, besides functionality and efficiency, a diversified design preferable for all offices. The drawer support an elegant expression with the front on 38 mm., which similarly provide good leg room. Furthermore, the drawer is delivered with 110% extraction, which gives you a great opportunity to

use all corners of the drawer. Additionally, the drawer can be personalised based on your specifically needs due to the accessory assortment.

The Laptop Tray 2014 is already known in the assortment of PJ Production. However, a bamboo front can now be fixed to the front of the drawer in order to create a more sophisticated design. Bamboo is not only elegant, but is likewise preferable due to the green growing and sustainable production.

135 x 300 x 24/55 mm.

8075-Bamboo  
BAMBOO FRONT

Bamboo front - mainly project-oriented  
689 x 32 x 18 mm.

# LAPTOP TRAY ATHENE .

LAPTOP TRAY ATHENE // A perfect match for all desktops

**Modernising, organising, and optimising** // The working stations are getting smaller concurrently with an increased demand for storage removed from the surface of the desktops. While this development seems to continue, PJ Production have designed a new laptop drawer in relation to a well-known drawer of ours, - Laptop Tray 2014. This new drawer is recommendable for the majority of all desktops, since the depth has been

narrowed to approximately 31 cm. The length and height are, however, maintained the same measurements to ensure a maximum storage capacity to drawer blocks, pencils, pens, personal belongings, among other things. As a new initiative, the drawer can be upgraded with a bamboo front to support an exclusive finish. Yet it is noteworthy that this bamboo front is mainly project-oriented - do not hesitate to contact us.

1 x monitor bracket + 1 x extension arm  
Extension: 1 x 597 mm.

FUTURE FLEX // Representing flexibility

**3-in-1 solution** // Tailoring your workplace to be ergonomically friendly is essential on the workplace in order to avoid work-related injuries. These exact issues are obviated by our new monitor pole, Future Flex, which support comfortability and availability. Future Flex has full rotation, optimal rock opportunities, and height adjustment, which create a more productive and comfortable work space. Additionally, Future Flex can be accommodated

towards the specific demands and needs due to the 3-in-1 system. This system creates flexibility and maximum utilization of the space, since the monitor pole is available in two versions: a centred through-desk mount or a centred desk clamp, depending on the preferences. Future Flex embrace the clean desk policy, since the monitor pole has incorporated storage to reduce visible cables behind the screens and/or along the back of the desk.

OFFICE ACCESSORY //  
MONITOR POLE.

Desk clamp

Through desk mount

4130-K  
MONITOR POLE WITHOUT EXTENSION ARMS

1 x monitor pole in alu./black with desk clamp.  
No extension arms included!  
Monitor pole: 300 mm.

4130-G  
MONITOR POLE WITHOUT EXTENSION ARMS

1 x monitor pole in alu./black with through desk  
mount. No extension arms included!  
Monitor pole: 300 mm.

4120-K  
MONITOR POLE WITH ONE EXTENSION ARM

1 x monitor pole in alu./black with desk clamp +  
1 x extension arm on 33.5 cm.  
Monitor pole: 300 mm.  
Extension arm: 335 mm.

4120-G  
MONITOR POLE WITH ONE EXTENSION ARM

1 x monitor pole in alu./black with through desk  
mount + 1 x extension arm on 33.5 cm.  
Monitor pole: 300 mm.  
Extension arm: 335 mm.

4140-K  
MONITOR POLE WITH TWO EXTENSION ARMS

1 x monitor pole in alu./black with desk clamp +  
2 x extension arms on 33.5 cm.  
Monitor pole: 300 mm.  
Extension arms: 2 x 335 mm.

4140-G  
MONITOR POLE WITH TWO EXTENSION ARMS

1 x monitor pole with alu./black with through  
desk mount + 2 x extension arms on 33.5 cm.  
Monitor pole: 300 mm.  
Extension arms: 2 x 335 mm.

The monitor pole is available in the height of 30 cm and the extension arms in 33.5 cm. However, these can easily be designed, produced, and combined equal to your specific demands and needs.

# MONITOR POLE.

MONITOR POLE // Only the imagination sets the limit

**Get what you wish for //** This monitor pole is an excellent solution to create more storage on the desk. The extension arms can be fixed to both sides of the monitor pole, which is recommendable to the smaller working stations, since no space is wasted. The cables and wires can easily be hidden through the 30 cm. standard high aluminium pole to support the importance of clean desk in the working environment. PJ Production is capable of producing the

monitor pole in other colours or measurements than the original design. Currently, the monitor pole is available in the height of 30 cm., but this pole can easily be combined with monitor profiles to create a monitor rack to a self-chosen amount of computer screens. However, you are more than welcome to contact us in relation to a custom-made solution, because at PJ Production anything is possible, - and it is only the client that determine the final design.

OFFICE ACCESSORY //  
GAIA CABLE TRAYS.

3070-0000-9005/9006/9016

3070-0101-9005/9006/9016  
CONNECTORS

1 x connector to the module cable trays in black, aluminium, or white, respectively.

# GAIA CABLE TRAYS.

GAIA CABLE TRAY // The user-friendly cable tray to the modern working environment

**Create connectedness with the desk** // There is hardly anything in the world that is more unpleasant than cables and wires in different colours and sizes along the edges of the desk. Additionally, these visible cables affect the indoor climate, since the dust easily gets caught in the mess, where the vacuum cleaner cannot get access to. Fortunately, PJ Production seeks to overcome the issue with visible cables and wires with a simple,

attractive, and professionally correct solution. We have designed this new cable tray line with two designate sub-categories: module cable trays and fixed length cable trays. The module cable tray is 47 cm., and can be connected together with the enclosed connectors depending on the demands. The cable tray is also available in two fixed lengths, - 115 cm. and 147cm., if this is preferred instead of the module version.

453 x 150 x 92 mm.

**Portable office environment** // Physical and traditional offices are being challenged than ever before. Office environments are getting smaller while employees are expecting more flexibility on the workplace.

PJ Production have embraced the development and designed this innovative mobile cassette, which successfully can be used in portable offices due to the transportable design. The mobile cassette can eas-

ily be installed directly underneath the table or via mounting devices combined with plate(s) installed on the frame of the desks.

Besides the mobile cassette, the product line consist of several extra overs to complete the functionality and fulfil the demands. A colour-matching paper basket, for instance, can be applied along the side of the mobile cassette with an extra plate to ensure the ergonomically access.

## MO · CUP .

MO · CUP // The ultimate clean desk feature

**Clean desk** // Various of companies embrace the smaller, portable offices, including the clean desk policy, where the workplace is empty and ready for the next-coming working day. PJ Production have developed a new and innovative cup-holder that discretely can be installed underneath the desk. The cup-holder is an ideal solution for the smaller offices, since the cup-holder generate depositary removed from the desktops.

Furthermore, when removing the cup from the desk, the problem with damaged computers due to spilled liquid, - especially coffee, will be decreased. The cup-holder is named: MO-CUP, because of the multifunctional design. Besides the space for an universal cup, the cup-holder has an integrated holder for a phone in the front. The phone can be charged while being placed in the cup-holder due to the hole in the bottom of the design.

MO-CUP // Avoid spilled coffee on the desk with our new MO-CUP

SACHEL HOOK // Storage your personal belonging at your fingertips

## OFFICE ACCESSORY // SACHEL HOOK.

5000-0000-9005  
SACHEL HOOK

Satchel hook in black  
59 x 44 x 69 mm.

## SACHEL HOOK.

**Your personal belongings at your fingertips** // The working environment is changing continuously, and the clean desk policy is more popular than ever before. Various of companies have chosen to integrate the clean desk policy as the customary to generate a more welcoming working environment with positive employees.

One factor that normally gets forgotten is the storage of the handbags. Most frequently the handbags

are flowing freely on the floor and the availability is minimised. PJ Production would like to solve this problem and we can proudly present our new satchel hook, where you can storage your personal belongings at your fingertips. The satchel hook is installed discretely underneath the desk to minimise the visibility when it is not being applied. The satchel hook can also be used to umbrellas or carrier bags to ensure that the floor is kept freely.
